

Philosophy

The Arroyo Grande United Methodist Children's Center is a non-profit organization. We are dedicated to providing a sense of security that nurtures and values each child and fosters family relationships. We provide developmentally appropriate environments where children learn through play and exploration inside and outside the classroom. We are a Christian ministry that serves the community with "Open Hearts, Open Doors, and Open Minds." We respect all people's diverse religions and cultural backgrounds while preserving the integrity of our own Christian identity.

Welcome To AGUMCC!

We are so glad you are interested in our program. We hope the information will aid you in determining if our school is the "right fit" for you and your child. We have a low child-to-teacher ratio in all our programs: a Toddler, a Preschool, and a TK program. We value and nurture a child's individual development while fostering family relationships. Our goal is to provide developmentally appropriate environments where children learn through play and exploration inside and outside the classroom. Please call to schedule a tour. We will be happy to show you what we have to offer.

Our Goals For Children

- To increase healthy self-esteem by providing a nurturing environment for growth and development.
- To promote the child's self-direction and encourage them to take responsibility for their actions.
- To help children achieve a solid foundation for future academic success.
- To help children develop an ability to express their needs to others.
- Care for others and respect people's space, body, and feelings.
- To develop a concept of healthy nutrition.
- To learn that each child is valued by family, teachers, peers, and God.
- To provide a safe environment for children.
